

HiveWatch

The HiveWatch vGSOC

A Virtual Global Security Operations Center

Harness the power of the Security Fusion Platform™ with a state-of-the-art, fully staffed and managed Global Security Operations Center powered by HiveWatch.

FEATURES

Monitoring:

The HiveWatch® vGSOC uses HiveWatch's GSOC Operating System to oversee your existing access control systems, alarms, and video surveillance remotely. By deploying our cloud-native solutions our veteran operators can quickly detect anomalies and fluctuations from all of your security sensors. The vGSOC has the ability to dispatch guards, verify employee credentials after hours, and escalate & communicate with emergency services in a crisis. The vGSOC will also keep on top of your device health so you'll be alerted as soon as an issue is detected. Our vGSOC is open and staffed 24/7, 365 days a year, so you don't have to be on call on weekends and nights.

Risk Intelligence:

Take your security from reactive to proactive with our state-of-the-art tools and seasoned team of experts:

Situational Awareness: Promptly receive up to date information and awareness of evolving critical incidents

Social Media: Utilizing open source information of multiple forms, HiveWatch uses social media to monitor and detect potential threats

Travel Tracking: Prepare and care for your traveling employees with pre-travel briefings, safety checks in dangerous locations, and monitoring of local incidents

Critical Communications: Notify your employees collectively during a critical incident to provide instructions or conduct welfare checks

Duty of Care:

Duty of care is a company's obligation to protect its employees from undue risk. HiveWatch can support an organization's commitment to their employees through situational awareness and social media monitoring, mass communications for critical incidents, travel guidance and safety, and COVID-19 safety.

Program Development:

The HiveWatch team helps design and implement a custom program to complement each customer's individual needs. Whether you're a fast-moving company with limited resources, or one looking to make changes to your existing programs, HiveWatch allows you to create a safer, more productive environment for your business. Incident management and investigations support to augment your internal teams.

Switching to HiveWatch saved us \$150-200K/year

- Sr. Manager of Global Physical Security at an American Gaming Company.
